Our Tramp Around the City!

KENTUCKY WEATHER REPORT.

What We May Expect Between This Time and to-morrow Evening.

THE LEDGER'S WEATHER SIGNALS.
White streamer—Fair; Blue—Rain or snow; With Black above—"twill warmer grow." If Black's message—Colours "twill be." Unless Black's shown—no change we'll see.

The above forecasts are made for a period of thirty-six hours, ending at 6 o'clock to-morrow evening.

IN BARBARAZORA-LAND.
An elephant sat in a tree top high
And watched a song of pine.
While an eagle dived in a pasture night
By the side of a burnisher.

A serpent stood on a moss-grown rock,
Discussing the Tariff law,
And a tiger tried to pick the lock
Of a ship coming to sea.

A big green parrot was planting stones
To raise rock-casualty cross.
And a turtle piped in shrill tones
Above the pain tree tops.

A sacred cow and a lioness both
Were playing a game of chess.
While an old ewe-wolf was catching cold
And sneezed till she tore her dress.

A languorous seahorse gaily flew
From flower to flower and tree.
And an antelope with eyes of blue
Was making pies of me.

But a big baboon came up last then
With a growl, gruesome gun.
And said the clock was striking ten,
And that spoiled all the fun.

GRANT men and great lawyers make mistakes as well as common people. Samuel J. Tilden made a will that nobody could understand, or at least which was broken, and now the courts have decided that ex-President James K. Polk's is worthless. As a result \$500,000 worth of Nashville property will go the way he did not intend.

GOVERNOR BROWN has signed the "separate coach" bill. The negroes of the state have been strongly opposed to the law, but its effect will probably be to compensate them with plenty of room in traveling at times when the whites are crowded. NIGHT before last a dastardly attempt at incendiarism was made at Sand Hill. Some wretch poured coal oil on the porch of J. B. THE ONLY TRUE AMERICAN CITY.

Philadelphia the City of Pleasant Homes and not of Overcrowded Hotels.

The census reports show us that in the matter of separate homes for private families Philadelphia is the most happily situated of any city in the country and probably in the world. Some time since, as we learn from one of Mr. George W. Child's estimable papers, *The Public Ledger*, the women of Philadelphia took in hand the matter of designing a model home for working people. The pattern adopted was a separate house for each family, with not only heaters, a range and hot and cold water, but with a little yard and garden to each. In such a veritable palace of luxury any Philadelphia family can dwell if they can pay as much as eighteen to twenty dollars a month rent. So successful has proved the model cottage designed for the working people by the Philadelphia ladies that they are preparing a pattern of one of the houses for exhibition at the World's Fair. It will be a model richly worth studying by inhabitants of other cities.

The comparatively very large number of Philadelphia people who live in homes all to themselves is shown in the following extract from the Ladies' Aid Society to General Jacob Ammen Camp, S. O. V.

According to the printed statistics, Philadelphia with only a little over a million inhabitants, has 187,093 dwellings, or an average of only 5.60 persons to a dwelling. New York, by contrast, with a population of over 1,500,000, has only 81,828 dwellings, or an average of 18.52 persons to a dwelling. The average Philadelphia family is larger than the average New York family in the proportion of 5.10 persons to 1.84 persons. Only 15 per cent. of the houses in Philadelphia are occupied by more than one family. In New York 88 per cent. are so occupied and in Chicago 65 per cent.

There are of course many reasons for the distinct advantage which Philadelphia possesses over other cities, but undoubtedly the greatest of these are the favorable situation of Philadelphia as regards growth, and the power of expansion, and the ease with which property can be acquired in this city. If the census report had included the proportion of houses owned by their occupants Philadelphia would have shown to even better advantage. To the building societies is due much of the marvelous growth of Philadelphia in this respect. The opportunity to acquire a home by means of this most useful form of organization is in the hands of every thrifty workman.

The purchase or erection of homes reduces on the builders, causing them to offer more and more attractive houses as the demand increases, and with it the competition. The women of Philadelphia have designed the Philadelphia house. They have demanded that every room shall be lighted directly, that each room shall be entered by a separate door, and have insisted on the various little conveniences one after another which now go to make up the Philadelphia home. Not long ago a competition was held in Chicago for the best model of a workman's home. The plans which won the first prize would have been discarded at once by any Philadelphia woman. Unlighted bedrooms and communicating rooms were among some of the evils of the plan.

J. LEWIS PATTON, Special Agent, is still canvassing Mason and adjoining counties in the interest of a first-class life insurance company.

THE syndicate that made an offer of \$100,000 for the electric car franchise in Covington is ready to increase the offer to \$150,000. This is certainly a tempting offer, and it is said they will give an ample bond to insure a five-cent fare and a superior system of rapid transit.

THE C. and O. people don't seem to be worried over the action of Commander Mack of the Department of Ohio, G. A. R., in selecting the B. and O. S. W. as his official route to Washington. The C. and O. holds contracts with nineteen States. It seems the only people Commander Mack can speak authoritatively for are the members of his staff. An official of the C. and O. stated that if there was any fight it would be among members of the G. A. R. only.

IN HOC SIGNO VINCES.

The camel ought to be a Democrat, and he probably is. It is said that "he can go without water for twenty days and carry a heavy load."

It is claimed by *The Washington Post* that over one hundred delegates to the Minneapolis Convention are Federal officeholders; and it adds: "If the order attributed last week to the President, that officeholders must not attend the convention, is carried out, they will be considerably over one hundred absent delegates. In the Northern states the officeholding delegates are not as numerous as in the South."

The editor who is afraid to speak out on a public question, lest some subscriber will stop his paper, will never secure a very large circulation or an extensive influence. The editor who expects to please everybody will wind up his career by pleasing nobody. The first lesson of independence for the newspaper man is to keep his paper as nearly right as possible without fear of the subscriber who stops his paper.

THE LEDGER is glad to learn from *The Kentucky Journal* that Newport has "capitalized to nothing but enterprise and rapid transit," which means, of course, reduced fares on her street railways. This is in line with Republican policy—git-up-and-git and facilities always result in a reduction of prices. But we will discuss these matters further over the foaming lager that shall flow at the promised social.

DEPUTY AUDITOR VIRGIL HEWITT says that the available funds in the State Treasury will be exhausted next week and the deficit will not be met till the taxes collected from the banks come in in July. Members of the Legislature and others having demands on the treasury will have to accept script for their services, or wait till payments are made. It will be impossible to pay off any of the items of the general legislative appropriation bill unless some unforeseen changes should come. We submit to our Democratic friends and fellow-taxpayers if it isn't about time to stop talking about Republican extravagance at Washington and look at some of the wastefulness at Frankfort?

STEAMSHIPS

To Operate Between the United States and Honduras.

The Object to Export Honduras' Fruits and Import Merchandise.

A Company Organized at Puerto Cortes—The Steamers Are to Fly Between That City and New Orleans, Giving to More Trade Facilities.

WASHINGTON, May 26.—The bureau of the American Republics has been informed by the Consul General of Honduras, that a new company has perfected arrangements to connect extensively in the fruit trade between Puerto Cortes, on the northwest coast of Honduras, and New Orleans. The company is composed of Dr. J. H. Mitchell and William F. Coleman, Americans, and Nicholas Pulla, a Honduran, all business men at San Pedro Sula, a city located at the northern terminus of the railroad, 35 miles from Puerto Cortes.

The object is to export bananas and fruits of all kinds, and import all kinds of merchandise. The company will do a general commission business likewise. Contracts have already been made with fruit-growers along the line of the railroad and on the coast to furnish to this company their entire crops. The steamers are to ply direct between Puerto Cortes and New Orleans—making the trip in three and a half days, a saving of one and one-half days on the time heretofore required. The new company will do business on that coast, in addition to the two other lines already operating. "The Royal Mail Co. (Macheco)," from New Orleans, and "The West Line," from New York. Of course, the establishment of this new line of steamers will increase the trade facilities with United States.

Reported That Blaine Will Be a Candidate. NEW YORK, May 26.—The Sun says Wednesday morning: "After the conversation which ex-Senator Platt, Whitehall Reid, Gen. Horace Porter and other republicans had, in the morning of the party had with Mr. Blaine yesterday, the closest friends of Mr. Platt said they had from his own lips that Mr. Blaine had decided not to run with the presentation of his name before the convention at Minneapolis; that it was Mr. Blaine's intention not to return to Washington until after the convention, and that by the close of this week he would leave for Maine, and go to Bar Harbor later on."

TENNESSEE TO TAKE A REST. JOHNSBURG, Pa., May 26.—On account of an overworked market the tanneries of the United States have decided to close for a period of thirty days, beginning June 1. The Dell tannery, owned by N. W. Rosenthal, of this place, in the combination and has already closed its works. About sixty men are thrown out of employment here. The closing will relieve the market of about \$200,000 hides, the number that would have been tanned in sixty days.

An Insurance Swindler Run Down. LOS ANGELES, Cal., May 26.—Bryant B. Cranford, formerly of Buffalo, N. Y., has been arrested here on a charge of defrauding insurance associations. The story which the arrest discloses is a remarkable one, it being thought long ago that Cranford had committed suicide, a body exactly corresponding to his having been found near Niagara Falls. The body was identified by the wife and relatives, who still live in Buffalo.

Relief for Sioux City Flood Sufferers. ST. MOIS, Mo., May 26.—Gov. Boies Wednesday issued a proclamation calling for relief for flood sufferers at Sioux City. The proclamation states that the calamity greatly exceeds the early estimate. The number of families homeless is placed at 1,000, and the number of destitute of all ages fully 5,000. The number of dwellings swept away given as 167, and 700 more rendered untenable.

A Carolina Tragedy. ASHEVILLE, N. C., May 26.—News has just reached here from Macon county that Nick Ray several days ago shot his brother-in-law, Neely Hensley, and just before Hensley died he drew his knife and fatally wounded Ray. The trouble grew out of family affairs and Hensley was the aggressor. A few days before the tragedy Ray received his commission as deputy marshal.

Only One Killed. ASHEVILLE, N. C., May 26.—A freight train on the Murphy branch at the Richmond and Danville railroad ran away and the engine jumped the track on the mountain near Bryson City turning completely over, catching under it Engineer Hunt, of Morganton, killing him instantly. Fireman Morley, slightly hurt. The engine and two cars were wrecked.

Hisses Cause a Death. NEW YORK, May 26.—A fatal death to the Herald says: A terrible tragedy took place in the little theater which is known as the Theater d'Appollon. The wife of an obscure tenor, named Peralde, who could not bear to hear her husband hissed by the audience, died suddenly in the lobby, her husband meanwhile endeavoring to sing and play his part on the stage.

Another Denial Suspect. SEDALIA, Mo., May 26.—A young white man, who gave his name as T. J. Williams, was arrested in this city charged with the murder of the four women in Denison, Tex., last Tuesday night. The arrest was made in the Western Union telegraph office by Sheriff DeLong, who had a message to be on the watch for Williams.

To Be Presented by Gen. Porter. NEW YORK, May 26.—A Herald Washington special says: Gen. Horace Porter, of New York, will probably present President Harrison's name to the Minneapolis convention. The matter has not been definitely arranged, but it is not doubt will be within the next forty-eight hours.

CARD OF THANKS.

Editor Public Ledger: Please to express through your columns to the Republicans and voters of the thirty-third Senatorial District our thanks and very high appreciation for the cordial support and substantial endorsement given us, on the short notice of less than twenty hours, in the recent race for the unexpired term of Senator Porvitz. Although we were not seeking either the race, the honor or the office—simply complied with the expressed wishes of the leaders and voters of my political party—the received endorsement is as highly appreciated "all the same." Very truly,
S. G. HILLIS.

SARDIS.

Charley Bland has not been so well for some time.
Charley Crawford of Murphyville has been packing tobacco for Suit & Grover.
Miss Lena Turner of Mr. Carmel is visiting Miss Katie Whiteman of this place.
Mrs. Buckner and son Opal have been taking their meals at Mr. Bonar's for some time. They start for Missouri now, where they expect to make their home in the future.

What Ailed the Baby.

Sunday Mrs. Wesley Thomas of Fronton, while giving her three-year-old son a bath, was mystified at the child's peculiar actions and cries at times, as though nervous or affected by sudden pains. Seeking a cause, she discovered what appeared to be a very small splinter in the child's breast, just over his heart. She started to pull it out, and almost faintly as she drew forth a needle an inch and a quarter long, which had been buried almost in its entire length in the baby's breast, and must have been dangerously near his heart. The needle was discolored and slightly bent, but unbroken. How or when it found lodgment in the baby's body is not known, of course, but it had evidently been there for a long time. The child has had spasms on two or three occasions, and these are now attributed to the effects of the needle in the body.

APPLICATION for authority to organize the Newport National Bank, by R. W. Nelson and associates, has been filed with the Controller of the Currency.

PROF. PROCTOR, State Geologist, has published a letter knocking in the head several lies that have been told about him in the newspapers. He has drawn down his salary instead of more, and nothing was paid him for the time he was in Europe. The scandal-mongers put their foot in it when they attacked him.

MASON COUNTY COURT MATTERS.

Gleanings From the Pages of Hon. Thomas R. Plister's Daily Decket.

In the County Court yesterday James R. Hunter qualified as administrator of Joseph D. Hunter, with William Hunter as surety.

Lutie Gray, colored, was before Judge Plister yesterday afternoon on charge of petit larceny. She had robbed Henry Jackson, a colored man, of a small sum of money. She was sent to jail for thirty days.

HOW THEY STAND ON THE ISSUE.

Result of Interviews With Democratic Politicians Regarding Instructions.

The Courier-Journal has sounded all the prominent Delegates to the Democratic Convention as to their views on sending an instructed delegation to Chicago. The answers from this section are given below:
Attorney General Hendrick of Fleming—I am opposed to instructions.
R. S. Hart of Fleming—I am against instructions.
Railroad Commissioner C. B. Poyntz of Mason—I think the Kentucky delegation should go uninstructed.
Walter Sharp of Bath—it ought to go an uninstructed delegation.
Senator-elect G. S. Wall of the Thirty-first District—I think the delegation should go uninstructed.
Green R. Keller, Nicholas—I am against instructions unless we instruct for Crille.
R. D. Wilson, Lewis—I favor the sending of an instructed delegation.
J. M. Frazer, Mason—I am rather opposed to instructions unless we instruct for Crille.
Hon. Green R. Keller—"The Ninth Congressional District will for the most part favor an instructed delegation."
Judge A. E. Cole of Mayville—"We should send our delegation with no instructions to hamper it, picking men that can be trusted."

Ex-Senator, but now Railroad Commissioner Poyntz, who is here as a delegate from Mason county, let the cat out of the bag, last night as to how the Chairman of the Railroad Commissioners was elected at Frankfort the other day. In the first place, the ex-Senator wants it understood that the other two Commissioners were for him, but with his usual diffidence he gently pushed the honor aside. Finally it was agreed that they should cut in a book, and that the one cutting nearest the letter A in the second line of the first page should be Chairman. The contestants then thrust their daggers between the leaves of an innocent literary work. Mr. Woodson and ex-Senator Poyntz both cut U, while Mr. McChord cut E, and was declared Chairman.

Mrs. John Zimmerman, an estimable lady of Dayton, died yesterday morning.

CARRIES M. TAYLOR, a farmer of Madison county, attempted suicide by shooting himself. He will probably die. Inanity was the cause.

During the past few nights a number of flowerpots in the care of Fifth Wards have been literally destroyed by thieving miscreants. If it is not stopped, the shotgun policy will be inaugurated.

The Pamela Wilmore will case, which has been in court at Nicholasville for the past three years, has been decided, the jury sustaining the will. The case was appealed two years ago from the Circuit Court to the Common Pleas Court, and has created a great deal of interest, from the fact that the deceased left an estate valued at \$60,000, which some of the relatives tried to prove was unevenly divided, and that she was of unsound mind. Some of the leading legal lights in the state were employed in the case.

FIRE, starting on the third floor of the building on Sixth street near Main, Louisville, destroyed the Gray & Landrum, manufacturers of jeans clothing, causing a loss of \$100,000. The stock was completely destroyed. It was valued at \$80,000, and was insured for \$60,000. The building, valued at \$40,000, was the property of the J. B. Wilcox estate. It was damaged about \$20,000, fully covered by insurance. The cause of the fire is supposed to have been an explosion of the gas that escaped from one of the gas-tubs.

THANKS for the departure from the dry-goods box of houses. A sensible architect has drawn the plans for a residence to be built in Bellevue. The architecture is of an entirely new design in this section of the country, but the prevailing fad in the East. A circular piazza will be in front and on the East side, that is of itself a thing of beauty. Circular plate-glass windows, handoms, finished stone trimmings, with a background of pressed brick, will make a beautiful exterior appearance while the inside will be unexcelled for convenience and beauty.

During the past year 4,397 vessels passed through the Suez Canal, and of these only twenty-six carried the American flag.

In Crittenden county, George L. Cruse a prominent farmer had his throat badly cut by a negro with whom he had quarreled. The negro surrendered himself.

SIR AUBREY CARMELMAN, of Kurenoy, Ceylon, is spending a few days in Lexington. He is a Count in his own right, and is an heir to two Earldoms. He speaks sixteen languages and has been around the world four times.

"UNCLE JOHNNY" WARREN, probably the oldest white man in Western North Carolina, died near Asheville, aged 102. It is related of him that he could not be persuaded to ride on a train or go near enough to the track to see the train, although for the last ten years he has been living within four miles of a railroad. He would never eat at a table where anyone could see him. Living only a few miles from Asheville, yet his last visit was made before he was 100 years of age. These eccentricities he has a good and prosperous career.
